Examiner Amendment And Reasons For Allowance

Examiner Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

The application has been amended as follows :

In the claims:

In claim 17, change "apparatus" to – method --.

Authorization for this Examiner's Amendment was given in a telephone interview with Mr. Joe M. Muncy on August 4, 2004.

Reasons For Allowance

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The basis for the allowability is :

Prior art of record does not teach fabricating a nitride read only memory, comprising the steps of: growing a pad oxide on the semiconductor substrate, forming a plurality of parallel buried diffusion regions as bit lines in the memory region, forming a first shallow trench and a second shallow trench in the peripheral circuit region, conformally forming an ONO film on the semiconductor substrate, depositing a polysilicon layer on the ONO film to fill the first shallow trenches and the second shallow trench, selectively etching the polysilicon layer in the memory region to define a plurality of polysilicon structures as word lines having gaps therein, and removing the polysilicon from the first shallow trenches and leaving the polysilicon layer in the second shallow trench in the peripheral circuit region, and forming an insulator in the first shallow trenches and the gaps between the word lines.
